

A woman with blonde hair is relaxing in a white hot tub. She has her eyes closed and a peaceful expression. The hot tub is situated outdoors next to a body of water, with green trees and a blue sky with white clouds in the background. Sunlight filters through the trees, creating a warm and inviting atmosphere.

Relax and Soak in the Luxury

The logo for Grand Lakes Spa Series features the words "GRAND LAKES" in a large, blue, serif font. Below "LAKES" is the phrase "Spa Series" in a smaller, italicized, blue font. The text is set against a background of light blue, wavy lines that suggest water or a spa environment.

GRAND LAKES
Spa Series

G636L

- 5 Person Lounger Spa
- 78"L x 78"W x 36"D
- 36 Therapeutic Stainless Steel Jets
- Molded Headrests
- Dual Air Controls
- (2) 5.2 BHP (3.0 HP Continuous Duty) 2-Speed Pumps
- 4 KW Heater
- 240 Volt (50 Amp GFCI Required)
- Weather Guard™ Maintenance-Free Cabinet
- 12 Volt Light - 3 Inch
- Ozone Included
- 5 Inch Cascading Waterfall (Adjustable)
- Dual Adjustable Collar Jets
- Foot Jets

G641B

- 6 Person Non-Lounger Spa
- 78"L x 78"W x 38"D
- 41 Therapeutic Stainless Steel Jets (Includes 14 Jet Turbo Jet Massage)
- Molded Headrests
- Dual Air Controls
- (2) 5.2 BHP (3.0 HP Continuous Duty) 2-Speed Pumps
- 4 KW Heater
- 240 Volt (50 Amp GFCI Required)
- Weather Guard™ Maintenance-Free Cabinet
- 12 Volt Light - 3 Inch
- Ozone Included
- 5 Inch Cascading Waterfall (Adjustable)
- Dual Adjustable Collar Jets

G728B

- 8 Person Non-Lounger Spa
- 82"L x 82"W x 36"D
- 28 Therapeutic Graphite Gray Jets
- Molded Headrests
- (1) 5.2 BHP (3.0 HP Continuous Duty) Pump
- 4 KW Heater
- 240 Volt (50 Amp GFCI Required)
- Weather Guard™ Maintenance-Free Cabinet
- 12 Volt Light - 3 Inch
- Ozone Included

NOTE: This model has Graphite Gray Jets and not Stainless Steel Jets

STAINLESS STEEL
JETS

G746L

- 5-6 Person Lounger Spa
- 85" L x 85" W x 40" D

GRAND LAKES SPAS SHELL AND CABINET COLOR CHOICES

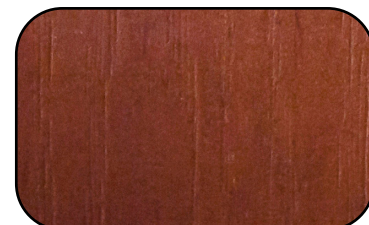

Silver Marble

Coastal Gray Cabinet

Tuscan Sun

Mahogany Cabinet

YOUR CHOICE OF A SILVER MARBLE SHELL WITH A COASTAL GRAY CABINET OR A TUSCAN SUN SHELL WITH A MAHOGANY CABINET

RELAX AND ENJOY THE FEELING OF BEING SOOTHED BY WARM, SWIRLING WATER. COME HOME TO YOUR OWN PRIVATE SPA THAT HAS MANY BENEFITS FOR YOUR HEALTH AND WELLNESS!

We have the deepest, most durable shells in the industry built with Patented Dura-Bond™ technology. All Grand Lakes Spas come with beautiful stainless steel jets, durable shell colors, ranging in size to comfortably fit 5-8 people. Your spa comes in an energy efficient Maintenance Free Weather Guard™ cabinet that is maintenance-free. Our proprietary energy saver system recycles the air generated by the mechanical equipment to provide you with energy efficiency. Our exclusive Polar Insulation System™ assists in maintaining spa water temperature efficiently even during the coldest northern winters.

Grand Lakes Spas are always conscious of saving energy for the environment and saving money for our customers. With this in mind we build our spas with innovative insulation and operating systems. Don't settle for inferior spas that will disappoint and result in maintenance and operational issues.

SPA HEALTH BENEFITS:

- **Muscle Pain**
- **Insomnia**
- **Rheumatism**
- **Arthritis**
- **Congestion**
- **Tension Headaches**
- **Menstrual Cramps**
- **Poor Blood Circulation**
- **Stiffness**
- **Lower Back Pain**

PATENTED DURA-BOND™

This four layer, patented strengthening process combines the beauty of Lucite Plus Acrylic™ with a layer of ABS to add shell strength and integrity. Then a double strengthening material is applied. This high density material has all the strengthening properties of fiberglass without the environmental concerns.

SHELL STRENGTHENING SYSTEM

1. Acrylic Plus™
2. ABS
3. Dura-Bond™ with Foam Insulation
4. Polyethylene Foam
5. Maintenance-Free Weather Guard™ Cabinet
6. Polystyrene Insulation
7. Radiant Foil Insulation
8. Thermal Air Barrier
9. Moisture-Resistant Polyethylene Flooring
10. Spa Frame

OZONE SYSTEM

All Grand Lakes Spas come with ozone installed. An ozone generator runs during your filter cycle to sanitize the water and it doesn't have the smell that bromine or chlorine adds to your water. Ozone does not bleach your hair or fade your clothes like harsh chemicals will do over time. There is less maintenance with an ozone generator and is the preferred choice for busy families. Ozone is "active oxygen", nature's special element; ozone is a natural purifier. Ozone is the most powerful oxidizer safely used in spas.

ALL GRAND LAKES SPAS COME LOADED WITH FEATURES!*

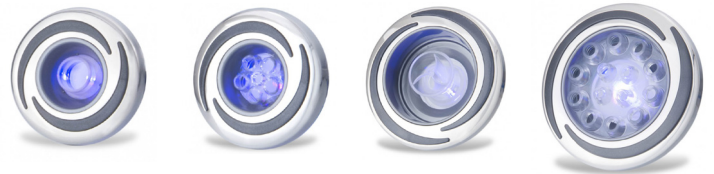

MAINTENANCE-FREE WEATHER GUARD™ CABINET

Our synthetic cabinets are known for their rich, beautiful appearance and long lasting durability. Fully removable access panels make service a breeze.

HIGH POWER STAINLESS STEEL JETS

All Grand Lakes Spas come with beautiful, durable, and adjustable Therapeutic Halo Spectrum Stainless Steel Jets.

POLAR INSULATION SYSTEM™

All Grand Lakes Spas come with our double layer Polar Insulation System™. A thick layer of polystyrene foam and a heat reflective thermal-blanket on the wall and floor retain heat within the cabinet. (Recommended for outside air temperatures above -10° F/-23° C).

ENERGY SAVER SYSTEM™

Heat is generated by the spa's power equipment inside the cabinet. This heated air is captured and returned to the spas water. This continually helps maintain the water temperature without running the heater as often. This heat recovery system saves you money in electrical cost and helps save our planet.

GRAND LAKES SPAS ELECTRONIC TOPSIDE CONTROL FEATURES

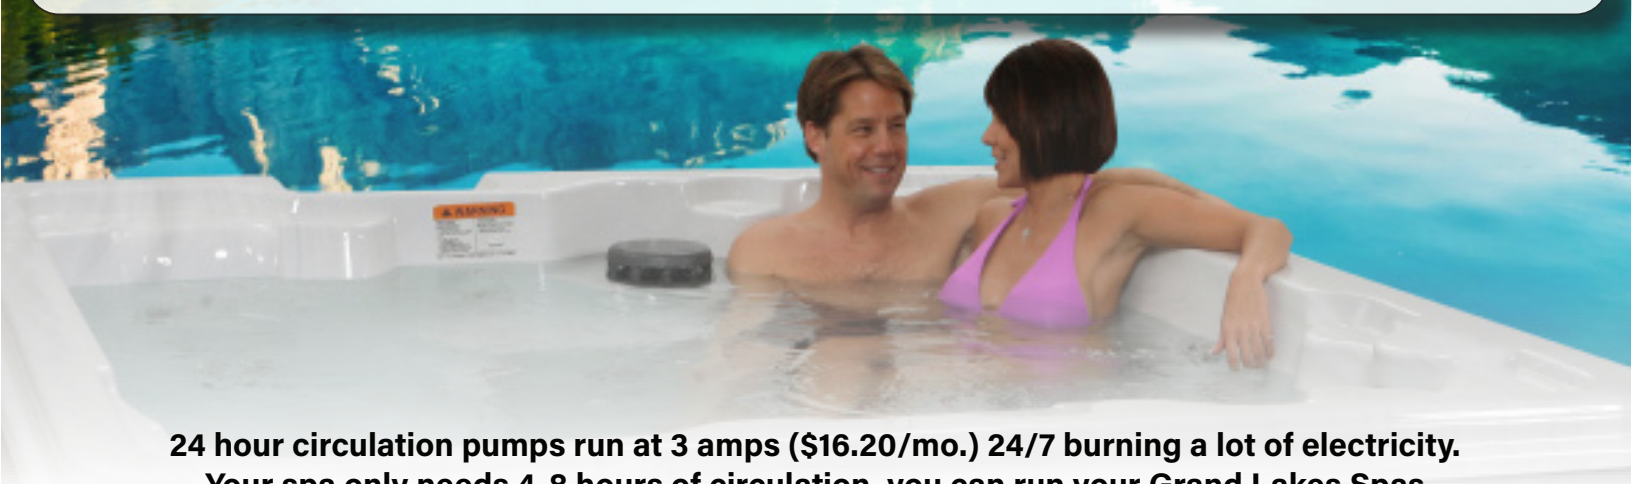

BALBOA® BP CONTROL PACK

These sleek panels have LCD graphical displays with function indicator icons, maintenance reminders and service alerts on the easy-to-read screen. It contains a heat and humidity resistant microprocessor and requires no programming. Overheat fault detection for runaway pumps, stuck relays and new software with color graphics.

GRAND LAKES SPAS FEATURES CONTINUED

Most hot tubs have a "circ" or circulation pump running 24 hours a day 7 days a week to make sure your water is filtered continuously. But the cost of running it that often is neither cost-saving nor energy efficient. With Grand Lakes Spas Hi-Efficiency SUPER Flow Pump, you can run your Grand Lakes Spa for as little as 4 hours a day and receive the same effectiveness as a traditional circ pump with our low power draw, 230 Volt, 1 Amp 5.2 BHP Hi-Efficiency SUPER Flow Pump. The pump pushes the maximum pressure through our Spectrum Halo Jets to give you the most relaxing experience in your spa. This method is the most effective for filtering your spa water and minimizing your energy consumption, that not only saves you money but helps save the environment.

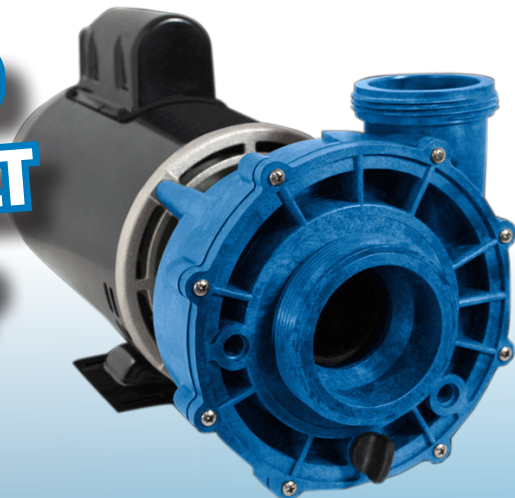

24 hour circulation pumps run at 3 amps (\$16.20/mo.) 24/7 burning a lot of electricity. Your spa only needs 4-8 hours of circulation, you can run your Grand Lakes Spas Hi-Efficiency SUPER Flow Pump for a full 8 hours on low speed of 1 amp a day and pay only....

18 CENTS/ 8 HR. DAY OR \$5.40/MONTH

PUMP STYLE	COST PER MONTH (RUNNING 4 HRS./DAY)	COST PER MONTH (RUNNING 8 HRS./DAY)
GRAND LAKES SPAS HI-EFFICIENCY SUPER FLOW 5.2 HP PUMP	\$2.70	\$5.40*

*Based on \$0.10 per Kilowatt hour. Circulation/filtration pump only. Based on local power cost. Price will vary.
